

1632 River Road, Puyallup, WA. 98371 phone# 253.840.5167 fax# 253.840.0164

We were not that familiar with surveillance systems. In shopping around we contacted 25/7 Protection. The Associate came out to our location. He walked through our remodeled building taking precise notes. I was surprised on the amount of time that he took. But when he came to me with a binder full of suggestions and options available for the choices that were available to me I was impressed.

Our system that we chose was installed promptly. A few bugs were handled swiftly. The training was very good. Online support and tutorials will help to adjust to any situation. The system has paid for itself more than once. Car theft, vandalism, accidents on the premises, and also employee thievery was caught on tape. This was a tool for the Seattle Police Department to catch the bad guys.

I recommend 25\7 Protection for a job well done.
