From : Burien's Auto Outlet

I would like to explain my gratitude to you and your company. Your service was quick and you explained every step so we would understand the process. Al was always on time and ready to solve any problems We had with lighting and positioning of the cameras. I would recommend your company to anyone who would be in need of even the smallest to the largest jobs. We now feel we do not have to worry about vandalism and theft since installing your system. Thank you for your exceptional service and great product.

Management

A handwritten signature in blue ink, appearing to read "Kevin Arruda", is written over the typed name below.
